**Attachments:** Post-Focus Cases needed RAD support.pdf; ATT00001.htm

Thanks

Ex. 6 Personal Privacy (PP) please work together to provide assignments to SRC on eco/hh work that must be initiated as early as next Monday for cases in the list below. Please keep Ex. 6 Personal Privacy (PP) in the loop at all times.

Thanks

I received a very quick list of cases needing determination document language. The link is below, and here:

LIST OF CASES URGENTLY NEEDING RAD LANGUAGE

I hope this is on point. As I mention below in the broadcast email, I am going to close this out once you pass it over to RAD and reincorporate these requests into the main list. Please let me know when you do pass it off.

Thanks,

Ex. 6 Personal Privacy (PP)

P.S., sorry that you were not copied earlier, it was an inadvertence.

**Subject:** Request for Determination Language from RAD -- Hair on Fire! and High Priority Cases

Dear All,

asked me to reach out to Program Managers for a list of their highest priority cases that are waiting on, or need, risk language writeups from RAD. I believe will hand this list over directly to RAD for quick action. I do not think that it will be replacing the tracking spreadsheet, that sheet will probably remain the primary means of requesting RAD language . . . but this a chance to put a few of your hair on fire cases at the front of the line.

If you want to be included on the list, please add your cases to this list ASAP.

## LIST OF CASES URGENTLY NEEDING RAD LANGUAGE

These can be cases on the other spreadsheet or not. This is only going to be active for a short time, and I will clearly indicate on the spreadsheet when it is closed. When it closes, I will add the cases to the existing tracking sheet if they aren't there already, and I will update the status of the cases on the existing tracking sheet if necessary.

Please let me know if you have any trouble accessing the link or other questions.

Thanks,
